

# Chrome Single Lever Basin Tap with Aerator

This chrome-finished tap features a cylindrical body, a horizontal spout with an aerator, and a lever handle. The aerator suggests water conservation functionality, and the lever handle allows for easy water flow and temperature control.

## Product Overview

### Modern Chrome Basin Tap

This premium single lever basin tap features a sleek chrome finish, offering a contemporary aesthetic suitable for professional bathroom and kitchen environments. Engineered for efficiency, the integrated aerator ensures a steady, controlled water flow for improved conservation. With its intuitive lever design, users can effortlessly manage both temperature and water volume, combining durability with functional elegance.
