

# Chrome Vanadium Steel Pozi Screwdriver

This pozi screwdriver features a chrome vanadium steel shaft, offering enhanced strength and resistance to corrosion. Its ergonomic, dual-component handle provides a comfortable and secure grip, reducing hand fatigue.

## Product Overview

### Professional Grade Pozi Screwdriver

This high-quality Pozi screwdriver is engineered with a durable chrome vanadium steel shaft, providing superior strength and long-term resistance to corrosion. Designed with user comfort in mind, the dual-component ergonomic handle ensures a secure grip while significantly reducing hand fatigue during prolonged operational use. Its precision-machined tip is crafted to guarantee an exact fit in screw heads, effectively minimizing the risk of slippage or damage to components.

## Technical Specifications

Material	Chrome Vanadium Steel
Handle Construction	Dual-component ergonomic
Tip Engineering	Precision-machined

## Applications

Primary Applications	Construction, Repair, Maintenance
