

Circular Physical Measuring Meter

This is a physical measuring meter with a circular design. It is designed for precise measurements and is suitable for applications requiring accurate physical readings.

Product Overview

Precision Circular Measuring Instrument

This circular physical measuring meter is engineered for high-accuracy readings in demanding environments. Featuring a robust construction, the device ensures consistent performance and reliability for professional applications. Its clear, high-contrast markings allow for quick and precise data acquisition.

Technical Details

Identifier

JABP

Form Factor

Circular

Marking Colors

White, Red

Body Color

Blue
