

Circular Saw Blade for Material Cutting

This circular saw blade is designed for cutting various materials. Its numerous sharp teeth around its perimeter ensure efficient cutting.

Product Overview

Professional Material Cutting Solution

This circular saw blade is engineered for high-performance material cutting, featuring a precision-designed perimeter with sharp, durable teeth for efficient operation. Constructed from high-speed steel, it offers exceptional longevity and resistance to wear, making it a reliable choice for intensive use. It is fully compatible with standard electric saws and power tools, serving as an ideal component for both professional woodworking shops and demanding DIY projects.

Technical Specifications

Recommended Applications

- Professional Woodworking
- DIY Projects
- General Material Cutting

Key Features

High-Speed Steel • Durable Construction • Sharp Teeth

Material	High-speed steel
Tool Compatibility	Electric Saws, Power Tools
