Overview

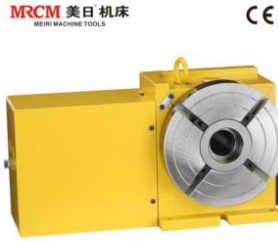

Precision sharpening unit designed for various blade sizes and tooth geometries.

Professional Circular Saw Blade Sharpener

This manual circular saw blade sharpener is engineered specifically for grinding hard alloy saw blades. It features adjustable plates and positioning pins to accommodate various blade diameters and tooth counts, ensuring precise alignment. The design allows for horizontal rotation of the grinding assembly, enabling users to maintain original blade angles or customize them as needed for specific cutting requirements.

Technical Specifications

Robust construction ensures stability and consistent sharpening performance.

Model	MR-S450
Saw Blade Diameter	450 mm
Power Supply	220V/380V, 50HZ, 3 PHASE
Motor Power	550 W
Grinding Speed	45 teeth/min

Physical Dimensions

Machine Dimensions	132 x 80 x 80 cm
Weight	130 kg

Compliance

Certifications	CE, ISO 9001
