

Circular Saw for Wood and Materials

This circular saw is designed for cutting wood and other materials. It features a powerful motor, adjustable cutting depth, and a sturdy base for stability.

Product Overview

Professional Performance

This circular saw is engineered for precision cutting across wood and various construction materials. It features a high-performance motor capable of reaching 5000 min-1, ensuring clean and efficient cuts for demanding projects. Designed with safety and ergonomics in mind, the tool includes a protective blade guard and a comfortable handle for superior control during operation.

Technical Specifications

No-Load Speed

5000 min-1
Speed

Blade Diameter 185 mm

Bore Size 20 mm

Features

Key Features

- Adjustable cutting depth
- Sturdy base for stability
- Ergonomic handle design
- Integrated blade safety guard

Application Suitability

Professional Use, DIY Projects, Woodworking, Material Cutting
