

Circular Saw for Wood and Plastic

This circular saw is a power tool designed for cutting wood, plastic, and other materials. It features a high-speed rotating blade, adjustable cutting depth, and a durable construction for reliable performance.

Overview

Professional Circular Saw

This high-performance circular saw is engineered for precision cutting across wood and plastic materials. Designed for reliability and versatility, it features a robust construction suitable for demanding professional projects. With adjustable cutting depth and high-speed operation, it provides the control and efficiency required for consistent results.

Technical Specifications

Maximum Cutting Depth	80 mm
Maximum Speed	8000 min-1
Blade Specification	24T

Key Features

Performance Highlights

8000 min-1
Max Speed

80 mm
Max Cut Depth

Compatible Materials

Wood, Plastic
