

Circular Saw

This circular saw is designed for precision cutting in various materials. It features a robust motor, adjustable cutting depth and bevel angles, and a durable construction.

Overview

High-Performance Circular Saw

This high-performance circular saw is designed for precision cutting across a variety of materials. It features a robust 1800W motor for efficient operation and durable construction for long-lasting performance. With adjustable cutting depth and bevel angles, it offers the versatility needed for both professional woodworking and demanding DIY projects.

Technical Specifications

Rated Power

1800 W

Rated Power

Voltage

230V 50Hz

No-load Speed

6000 RPM

Cutting Capabilities

Saw Blade Diameter

200 mm

Maximum Cutting Depth

65 mm

Tilt Angle

0-45 degrees

Features

Safety & Ergonomics

- Safety guard included
- Ergonomic handle design
