

Circular White Plastic Ventilation Fan

This ventilation fan features a circular design with a spiral grill for efficient airflow. Its durable white plastic housing and concentric ring structure provide both support and directed ventilation.

Product Overview

Compact and Efficient Air Circulation

This circular white plastic ventilation fan is designed for optimal air circulation in residential and commercial environments. Featuring a 10-inch blade size and a specialized spiral grill design, it balances structural integrity with consistent airflow performance. The unit is built with durable materials, making it a reliable solution for maintaining air quality and comfort in various indoor spaces.

Performance Specifications

Key Performance Metrics

35 W

Power Consumption

300 m3/H

Air Volume

50 dB

Noise Level

Physical Attributes

Blade Size	235mm / 10 inches
Material & Finish	White Plastic, Circular Housing, Spiral Grill Design

Logistics

Packaging & Container Loading

Metric	Specification
