

# Circulating Pump for Fluid Circulation

This circulating pump is designed for applications requiring fluid circulation. It is suitable for liquids ranging from -25°C to +110°C and ambient temperatures up to 40°C.

## Product Overview

### RS Series Circulating Pump

The RS Series circulating pump is designed for efficient fluid circulation across diverse industrial and residential applications. Engineered for reliability, it supports a broad liquid temperature range and operates effectively under pressure up to 10 bar. Its durable construction and standardized certifications ensure consistent performance in varied professional installation environments.

## Technical Specifications

### Performance Metrics

**110 °C**

Max Liquid Temp

**10 bar**

Operating Pressure

**0.35 A**

Rated Current

### Operating Conditions

- Liquid Temperature Range: -25°C to +110°C
- Ambient Temperature: max 40°C
- Voltage: 220V-50Hz
- Protection Rating: IP54

## Compliance & Quality

### Certifications

CE, ISO9002

## Dimensional Data

### Dimensions and Weight

Type	L1 (mm)	Weight (kg)
RS15/6	130	2.6
RS25/4	130	2.8
RS25/4	180	3
RS25/6	130	2.8
RS25/6	180	3
