

Circumaural Gaming Headset with Boom Microphone

This gaming headset provides clear communication and immersive audio. It features circumaural earcups for noise isolation, a flexible boom microphone, and integrated controls.

Overview

Versatile Gaming & Communication Headset

The LKT-A64 is a versatile circumaural headset designed for clear communication and immersive audio experiences. Featuring noise-isolating earcups and a flexible boom microphone, it is ideal for gaming, online meetings, and multimedia applications. The adjustable headband and padded design ensure comfort during extended use, while integrated controls allow for quick volume and microphone adjustments.
