

Circumaural Stereo Gaming Headset with Boom Mic

This circumaural gaming headset is designed for immersive audio and clear voice communication. It features plush earcups for extended comfort and a flexible boom microphone for optimal positioning.

Product Overview

Immersive Audio Experience

The LKT-A71 is a circumaural gaming headset engineered for both immersive audio performance and crystal-clear voice communication. Designed with plush earcups and an adjustable headband, it ensures comfort during extended gaming sessions. The closed-back architecture provides superior noise isolation, while the flexible boom microphone allows for precise positioning to capture clear audio.
