

Circumaural Stereo Headphone with Noise-Cancelling Mic

This circumaural headset is designed for communication and audio applications. It has padded earcups, an adjustable headband, and a flexible gooseneck microphone with noise cancellation.

Product Overview

Professional Audio Solution

The LKT-A68 is a high-performance circumaural headset designed specifically for clear communication and immersive audio applications. Featuring a flexible gooseneck microphone with noise-cancellation capabilities, it ensures professional-grade voice transmission in busy environments. The design prioritizes user comfort with padded synthetic leather earcups and a steel-reinforced adjustable headband, making it ideal for extended wear.
