

City Bus with White and Green Color Scheme

This city bus comes in a white and green color scheme with dark blue window accents. The bus is designed with multiple windows and two sets of doors, suitable for urban transportation.

Overview

Modern Urban Transportation Solution

This city bus features a distinctive white and green color scheme with dark blue window accents, designed specifically for efficient urban transit. Its modern, functional aesthetic includes a rounded front profile, a durable green bumper, and high-visibility headlights. Engineered for reliability and passenger accessibility, the vehicle incorporates a dual-door system along its side to facilitate quick boarding and alighting in busy city environments.
