

Clamp-On Front Bicycle Derailleur

This front derailleur shifts the chain between the chainrings of a bicycle's crankset. It is a clamp-on type, designed for use with a multi-speed drivetrain.

Product Overview

High-Performance Front Derailleur

This clamp-on front bicycle derailleur is engineered for smooth and reliable gear shifting across multi-speed drivetrains. Constructed from durable metal, likely steel or aluminum, it offers robust performance and long-lasting reliability. The unit features a precision-engineered cage designed to guide the chain effectively between chainrings, ensuring consistent operation on various frame sizes.

Technical Specifications

Compatibility

- Multi-speed drivetrains
- Various frame sizes
- Various chainring sizes

Mounting Style

Clamp-on

Material

Metal, Steel/Aluminum

Actuation

Cable-actuated
