

Classic Bicycle Air Horn

This classic bicycle air horn features a bulb-style actuator and polished metal horn. It is designed for clear and loud signaling, enhancing safety while cycling and easily attaching to handlebars or frames with the included mounting bracket.

Product Overview

Classic Bicycle Air Horn

This classic bicycle air horn is designed to provide clear and loud signaling for enhanced safety while cycling. Constructed from a durable combination of steel and plastic, it features a traditional bulb-style actuator that is easy to operate. The compact 7-inch design includes a mounting bracket, making it simple to attach to various bicycle handlebars or frames.
