

Classic CRT Television Set

This is a classic CRT television set with a black plastic casing and white trim. The TV features a 4:3 aspect ratio display and a curved screen typical of CRT technology.

Product Overview

Vintage Visual Technology

This classic CRT television set offers a nostalgic viewing experience, characteristic of analog broadcast standards. With its distinctive 4:3 aspect ratio and curved screen profile, it serves as a functional piece of legacy technology for specialized applications. The unit features robust construction with integrated front-mounted tactile controls for simple operation.
