

Classic Style Ceiling Fan with Light

This ceiling fan features a classic design with five wooden blades and an integrated lighting fixture. In summer, turning the switch of the ceiling fan to clockwise can produce wind chill to make the ambient temperature feel cooler.

Overview

Classic Style Ceiling Fan with Light

This classic ceiling fan features five wooden blades with a natural grain finish and an integrated lighting fixture with frosted glass shades. Designed for both functionality and aesthetic appeal, it includes an antique brass housing and convenient pull-chain controls. Beyond its visual appeal, the fan is engineered to improve indoor climate comfort and significantly reduce energy costs when used in conjunction with air conditioning systems.

Energy Efficiency

Energy Savings Potential

Metric	1P Air Conditioner	2P Air Conditioner	3P Air Conditioner
Rated Power (W)	1200	2200	3100
Electricity Charge/Day (Currency Unit)	7.68	14.08	19.84
Savings/Day (Currency Unit)	2.622	5.182	7.486

Operational Benefit

Using the fan in clockwise mode during summer can create a wind chill effect, allowing air conditioner settings to be raised, potentially saving 40% or more in energy costs.

Design & Features

Number of Blades	5
Finish	Antique Brass, Natural Wood Grain
Control Type	Pull Chains
Lighting	Integrated frosted glass shades
