

Claw Hammer with Drop Forged Steel Head

This claw hammer is designed for construction and demolition tasks. It features a drop-forged steel head for strength and a comfortable, ergonomic handle.

Product Overview

Professional Grade Claw Hammer

This versatile claw hammer is engineered for high-performance construction and demolition tasks. Featuring a robust drop-forged steel head, it provides superior durability and impact resistance for heavy-duty applications. The ergonomic handle design minimizes user fatigue during prolonged use, ensuring precision and efficiency when driving or removing nails.

Technical Specifications

Material	Drop-forged steel
Country of Origin	China

Key Features

Key Advantages

- Drop-forged steel head for maximum strength
- Ergonomic handle to reduce user fatigue
- Precision balance for efficient nail driving and removal

Common Applications	Construction, Demolition, Carpentry
---------------------	-------------------------------------
