

# Claw Hammer with Wooden Handle

This claw hammer is designed for both driving and removing nails. It features a forged steel head and a comfortable wooden handle.

## Product Overview

### Professional Grade Claw Hammer

This claw hammer is designed for versatility in both professional construction and general carpentry tasks. Featuring a durable forged steel head, it provides reliable performance for driving nails and efficient leverage for extraction. The ergonomic wooden handle is enhanced with a rubberized grip, ensuring comfort and control during extended use.
