

Clear Impact-Resistant Face Shield

This clear face shield provides essential face protection from impacts, splashes, and debris. Constructed from high-impact resistant polycarbonate, the shield offers excellent optical clarity and durability.

Product Overview

Clear Impact-Resistant Face Shield

The HM415 Clear Face Shield is engineered to provide comprehensive facial protection against impacts, splashes, and flying debris. Constructed from high-impact resistant polycarbonate, this shield delivers superior optical clarity alongside rugged durability for demanding environments. Designed with adjustable headgear, it ensures a secure and comfortable fit for operators across various head sizes, making it an essential safety component for industrial, construction, and laboratory settings.
