Product Overview

Industrial Clinker Storage Solution

This industrial-grade storage silo is engineered for the reliable containment of clinker, cement, fly ash, coal ash, lime, and other mineral materials. Designed for high-capacity operations, the structure prioritizes durability and structural integrity to withstand harsh industrial environments. It features advanced, fully integrated auxiliary systems for material handling, including automated loading, discharging, and dust collection, ensuring seamless integration into manufacturing workflows.

Technical Specifications

Power Type	Electric
Galvanization	275-600g/m2
Compatible Materials	Cement, Fly Ash, Coal Ash, Lime, Mineral Materials

Auxiliary Systems

Integrated Systems

- Effective dust collector system
- Homogenization system
- Materials discharging system
- Materials truck loading system

Service & Compliance

Certifications

ISO • CE • SGS

Warranty

3 Years

Core Components Warranty

1 Year

Standard Warranty

Support Services

- Video technical support
- Online support
- Spare parts
- Field maintenance and repair
- Field installation, commissioning and training
