

Close-Coupled Centrifugal Pump for Fluid Transfer

This centrifugal pump is designed for efficient fluid transfer. Its robust cast iron construction ensures durability and reliability in demanding industrial applications.

Product Overview

Efficient Fluid Transfer Solution

This close-coupled centrifugal pump is engineered for reliable fluid transfer across a variety of industrial applications. Featuring a robust cast iron construction, it ensures long-term durability and consistent performance. The direct coupling to the electric motor minimizes space requirements, simplifying installation and reducing the overall footprint in your facility.

Technical Specifications

Construction Material	Cast Iron
Coupling Type	Close-coupled
Suitable Fluids	Clean Fluids, Slightly Contaminated Fluids, Low Viscosity

Features & Benefits

Key Features

- Space-saving compact design
- Simplified installation process
- Easy maintenance and inspection access
- Robust cast iron construction
