

Close-Coupled Centrifugal Pump for Industrial Applications

This centrifugal pump is designed for efficient fluid transfer in industrial applications. It features a durable cast iron casing and impeller for reliable performance.

Product Overview

Industrial Centrifugal Pump

This close-coupled centrifugal pump is engineered for efficient fluid transfer across a wide range of industrial environments. Built with a durable cast iron casing and impeller, it offers excellent resistance to wear and long-term reliability. The unit is powered by a high-efficiency electric motor designed to optimize performance while ensuring significant energy savings during operation.

Technical Specifications

Suitable Fluids

- Clean fluids
- Non-abrasive fluids
- Low viscosity liquids

Material Construction

Cast Iron Casing, Cast Iron Impeller

Applications & Usage

Primary Applications

HVAC Systems • Water Circulation • Pressure Boosting • General Industrial Processes
