

Clutch Cover Pressure Plate

This clutch cover pressure plate is a component of the clutch system, applying pressure to the clutch disc. It enables the transmission of power from the engine to the drivetrain.

Product Overview

High-Performance Clutch Cover

This clutch cover pressure plate is engineered for high-performance transmission systems, specifically designed for ISUZU GIGA series vehicles. It utilizes premium materials like SPCD steel and HT250, ensuring robust durability and reliable power transfer. The unit is manufactured to strict IATF 16949:2016 quality standards, providing a dependable replacement solution for heavy-duty automotive applications.

Technical Specifications

Dimensions	432*248-456 mm
Weight	38.22 kg
Structure Type	DTP

Compatibility

Compatible Vehicle Models

- ISUZU GIGA CYM52A8
- ISUZU GIGA CYM52V8
- ISUZU GIGA CYY52
- ISUZU GIGA CYY52V8

Compatible Engines	6WG1, 6WG1-TC
--------------------	---------------

Quality & Standards

Certifications

IATF 16949:2016

Warranty Coverage

2 yrs Years	50000 km Distance
-----------------------	-----------------------------

Materials & Construction

Materials Used

Component	Material
Clutch Cover	SPCD Steel
Pressure Plate	HT250
Diaphragm Spring	50CrV4

Logistics

Production Lead Times

Order Type	Lead Time
Sample Order	7-15 days
Bulk Order (20GP/40HQ)	60-70 days

Minimum Order Quantity	50
