

Clutch Pressure Plate 202x129 for Xiali N5 and Toyota Vitz

This clutch pressure plate measures 202x129 and is designed for Xiali N5 and Toyota Vitz vehicles. It facilitates efficient power transfer and smooth engagement.

Overview

Precision Engineered Clutch Pressure Plate

This high-performance clutch pressure plate is designed for efficient power transfer and smooth engagement. Built with robust materials to ensure durability, it provides consistent performance even under demanding driving conditions. Each unit is engineered to meet or exceed strict quality standards, making it a reliable choice for automotive maintenance and repair.

Technical Specifications

Cross Reference Data

Reference Type	Code
Factory No	FD95087
APRA No	CD4184/CD1022
Daikin No	48283

Facing Dimensions (O.D. x I.D.)	254 x 159 mm
Spline Configuration	10 x 27.59 mm
Part Number	31210-TXB10

Compatibility

Compatible Vehicles	Xiali N5, Toyota Vitz
