

Clutch Vacuum Booster

This clutch booster enhances clutch engagement and reduces pedal effort. It utilizes vacuum pressure to assist in clutch actuation, providing easier operation, especially in heavy-duty applications.

Product Overview

Compact Clutch Vacuum Booster

The 809-03002 is a compact 3-inch clutch vacuum booster designed for efficient clutch system operation. Engineered for reliability, this unit assists in clutch actuation to reduce pedal effort for the driver. Its small form factor makes it suitable for tight installation environments while maintaining robust performance standards.
