

CNC Lathe

This CNC lathe is designed for versatile machining operations. It features a robust construction with a fully enclosed work area for enhanced safety and chip containment.

Overview

High-Precision CNC Lathe

This high-precision CNC lathe is engineered for versatile machining operations across a wide range of materials. It features a robust, durable construction with a fully enclosed work area designed for enhanced operator safety and efficient chip containment. Equipped with an intuitive, user-friendly CNC control system, it streamlines programming and operation while delivering exceptional accuracy and repeatability for professional manufacturing environments.

Key Features

Model Number	CKL6136
Safety & Design	Fully Enclosed Work Area, Chip Containment, Robust Construction

Performance

Performance Highlights

1 High Accuracy Level	1 High Repeatability
