

# CNC Lathe Machine for Fashion Accessories

This CNC lathe machine is used for manufacturing garments, shoes, and accessories. It features a compact design with a protective enclosure, a digital control panel, and a sturdy base.

## Product Overview

### Precision CNC Lathe for Fashion Manufacturing

This CNC lathe machine is engineered specifically for the precision requirements of the fashion accessory, shoe, and garment industries. Featuring a compact, enclosed design, it ensures operational safety while maintaining high accuracy for complex machining tasks. Its sturdy base and intuitive digital control panel provide a reliable solution for manufacturers looking to streamline production of intricate fashion components.

## Technical Specifications

Machine Type	CNC Lathe
Primary Applications	Garments, Shoes, Fashion Accessories

## Design & Build

### Key Design Features

- Protective safety enclosure
- Compact footprint
- Sturdy industrial base
- Digital control interface

## Performance Metrics

Control System  
Digital Control
