Product Overview

High-Efficiency Coated Abrasive Paper

This professional-grade coated abrasive sanding paper is engineered for superior performance across a wide range of surface preparation tasks. Featuring advanced resin binder technology and high-quality abrasive grains, it offers exceptional durability, effective heat dissipation, and resistance to clogging. Designed for versatility, it is an ideal solution for polishing and grinding wood, furniture, machinery, and plastic surfaces.

Technical Specifications

Grit Range	P120 - P600
Abrasive Materials	Silicon Carbide, Aluminum Oxide
Backing Material	Kraft Paper, Imported Latex Paper

Performance Features

Key Performance Benefits

- Durable construction
- Excellent heat dissipation
- Blockage proof design
- High grinding efficiency

Applications

Compatible Surfaces

Wood • Furniture • Machinery • Plastic

Certifications

Industry Certifications

BSCI, FSC, MPA

Form Factor

Available Shapes

Rectangle, Piece
