

Coaxial Audio Video Cable

Coaxial cable designed for audio and video signal transmission, featuring a central copper conductor, surrounded by dielectric insulation, a metallic shield, and an outer protective jacket. It provides high signal integrity and minimizes interference.

Product Overview

High-Integrity Signal Transmission

This coaxial cable is engineered specifically for reliable audio and video signal transmission. It features a robust construction including a central copper conductor, dielectric insulation, and advanced metallic shielding to minimize signal interference. Designed for professionals, it ensures high signal integrity for demanding AV applications.

Construction Details

Conductor Material	Copper
Shielding	Braid, Foil
