

Coaxial Cable with F-Connector and RF Connector

This coaxial cable is designed for transmitting radio frequency (RF) signals. It ensures reliable signal transmission with minimal signal loss, making it suitable for both residential and commercial applications.

Product Overview

High-Performance RF Signal Transmission

This high-quality coaxial cable is engineered for consistent and reliable radio frequency signal transmission across both residential and commercial environments. It features a durable white protective jacket that ensures longevity while facilitating easy identification during installation. Equipped with industry-standard F-connectors and RF connectors, this cable is perfectly suited for high-fidelity connectivity between satellite receivers, modems, televisions, and cable boxes.

Technical Specifications

Cable Type	Coaxial
Connector Type (End 1)	F-Connector
Connector Type (End 2)	RF Connector
Performance Quality	Minimal Signal Loss, Reliable Transmission

Physical Properties

Jacket Color	White
--------------	-------

Application

Common Applications

- Cable television boxes
- Satellite receivers
- Modems
- Televisions
- RF input devices
