

Coffee Urn

This stainless steel coffee urn features a cylindrical body with a polished finish and black accents. Designed for brewing and dispensing coffee in large quantities, it is suitable for commercial or event use.

Product Overview

Professional Commercial Coffee Urn

This stainless steel coffee urn is engineered for high-volume beverage service, making it an ideal solution for offices, events, and catering operations. Its durable polished finish ensures a professional aesthetic while providing resistance to heavy commercial use. Designed for efficiency, the unit features a clear water level indicator and an integrated dispensing tap, allowing for easy monitoring and mess-free serving.
