

# Cold Water Electric Pressure Washer, 2.2-7.5kW

This cold water electric pressure washer is designed for heavy-duty cleaning. It delivers a working pressure of 12 MPa (1740 psi) with a flow rate of 13 liters per minute.

## ADDITIONAL IMAGES

## Product Overview

### Commercial-Grade Cleaning Power

This electric pressure washer is engineered for heavy-duty commercial and industrial applications, offering a versatile power range from 2.2kW to 7.5kW. It features a smart control system with integrated safety protections and a robust triplex pump design for reliable performance in demanding environments. The ergonomic, compact frame ensures easy maneuverability and storage, making it an ideal solution for professional cleaning tasks.

## Technical Specifications

### Model Specifications Table

Model	Max Pressure	Max Flow	Power	RPM
DCC-11/10CV-2S2	1600 psi / 110 bar	2.2 gpm / 10.4 lpm	2.2 kw / 220V	2880
DCC-12/13CV-3S2	1740 psi / 120 bar	3.3 gpm / 12.7 lpm	3.0 kw / 220V	2880
DCC-15/10CV-3T4	2270 psi / 149 bar	2.7 gpm / 10.4 lpm	3.0 kw / 380V	1450
DCC-19/10CV-4T4	2810 psi / 194 bar	2.6 gpm / 10.1 lpm	4.0 kw / 380V	1450

## Pump & Motor Construction

Pump Type

Commercial Grade Triplex Plunger Pump

Pump Components

Brass Manifold, Ceramic Plungers, Pressure Gauge, Thermal Protection

## Control & Safety

### Smart Control Panel Features

- Waterproof electric motor housing
- Overload protection
- Electric leakage protection
- Status indication lights
- Optional Remote Control Total Stop system

## Design & Ergonomics

The unit features a compact ergonomic design with a UV-resistant protective cover and integrated accessory storage.

## Durable and Portable Construction

The unit is built on a powder-coated steel frame featuring an integrated one-piece modified PP cover that is UV-resistant and colorfast. For mobility, it is equipped with 10-inch wheels (pneumatic or solid options) and includes built-in hooks for organized storage of the gun, high-pressure hose, and electric cable.

## Ingress Protection

IPX5

## Accessories

### Standard Accessories

- Professional trigger gun
- 20-inch stainless steel lance
- 10m (30FT) steel braided high-pressure hose
- 1/4" QD Nozzles (0°, 15°, 25°, 40°, and soap)
- 2.5M Electric cable
