Product Overview

Professional Garment Care

This collapsible handheld garment steamer is engineered for both efficiency and portability, making it a perfect solution for professional-grade wrinkle removal at home or on the go. Featuring a versatile vertical and horizontal ironing design, it utilizes a high-temperature aluminum alloy panel to effectively soften fibers and sanitize fabrics. With a rapid 25-second heat-up time and an ergonomic design, this device ensures quick, comfortable, and reliable garment maintenance.

Performance Specifications

Heat-up Time	25 seconds
Power Consumption	470-730W
Ironing Modes	Vertical, Horizontal

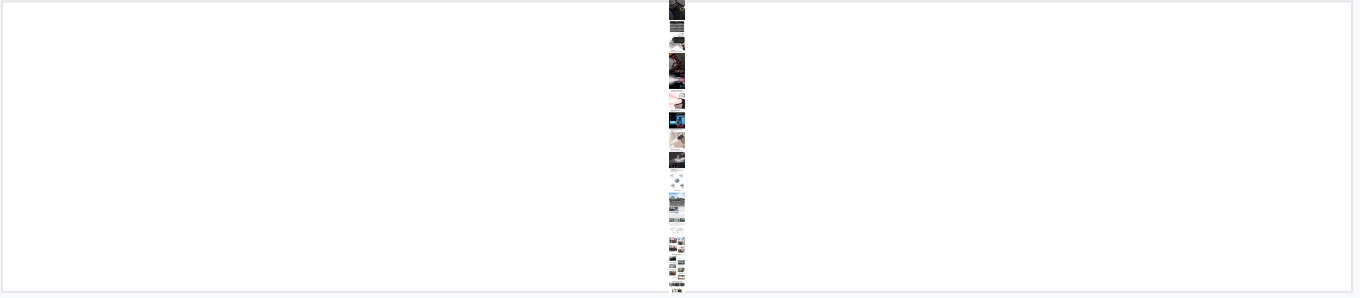

Technical Features

Safety Certifications

CE • CB • ETL • GS • Gmart

Ironing Panel Material	Aluminum alloy
Handle Angle	110 degrees

Design & Utility

Engineered with a compact, folding design for enhanced portability and storage.

Portability Features

- Collapsible folding design
- Compact form factor
- Detachable water tank
- Visible water level
