

Collapsible Reflective Warning Triangle

This collapsible reflective warning triangle indicates a vehicle breakdown or hazard. It features a sturdy base and bright red reflective surface for high visibility, especially at night.

Product Overview

Professional Roadside Safety Equipment

This collapsible reflective warning triangle is an essential safety tool designed to indicate vehicle breakdowns or hazards on the road. Engineered for high visibility, it features a bright red reflective surface that effectively alerts oncoming traffic in both low-light conditions and poor weather. Its compact, foldable design allows for convenient storage in a vehicle's trunk, ensuring it is always ready for emergency use.
