

Collapsible Rolling Storage Cart with Bins

This collapsible rolling cart includes three stackable storage bins. It features a telescoping handle and durable wheels for easily transporting items.

Product Overview

Versatile Storage Solution

This collapsible rolling storage cart features a tasteful, lightweight design suitable for both home and office environments. Engineered with an aluminum alloy frame treated with positive pole oxidation, it offers enhanced durability and superior rust resistance. The cart is designed for maximum space efficiency, folding down to occupy minimal space when not in use.

Design & Build

Surface Treatment	Positive pole oxidation on aluminum alloy
Rust-Proof Capability	Yes
Portability Features	Collapsible, Lightweight, Rolling

Functionality

Storage Configuration

- Three stackable storage bins
- Translucent plastic construction
- Secure lids included

Transport Mechanisms

- Telescoping handle
