Product Overview

Professional Column Radiators

These column radiators are designed for both residential and commercial heating applications, offering a classic aesthetic with efficient thermal distribution. Engineered for durability, they are constructed from high-quality mild steel (SPCC/Q195) and utilize a specialized welding patent for enhanced structural integrity and sealing. Compliant with EN442 standards, these units support both central hydronic and electric heating systems.

Technical Specifications

Standards & Certifications

EN442 • ISO 9000 • ISO 14001 • SA8000

Material	Mild Steel (SPCC / Q195)
Finishing	Chrome Plating, Powder Coating
Heating Compatibility	Central Hydronic, Electric
