

Combination Microwave Oven and Induction Cooktop

This combination appliance offers both microwave and induction cooking capabilities. It provides a versatile solution for various cooking needs.

Product Overview

Versatile Power Solution

This 5.5 HP single-cylinder gasoline engine is engineered for reliable performance across a variety of applications. Featuring a compact, air-cooled design, it is well-suited for powering small machinery, generators, and water pumps in both residential and commercial settings. Its durable construction and recoil start system ensure ease of use and long-lasting operation in demanding environments.

Technical Specifications

Engine Power

5.5 HP

Power Output

Cooling System	Air-cooled
Cylinder Configuration	Single-cylinder
Fuel Type	Gasoline

Features

Starting System	Recoil start
Common Applications	Generators, Water Pumps, Small Machinery
