

Combination Planer Thicknesser

This combination planer thicknesser integrates two essential woodworking operations into one machine. It features a 10-inch planing width and a 1100W motor for effective material removal.

Overview

Professional Combination Planer Thicknesser

This robust combination planer thicknesser is designed for precision woodworking, offering a seamless transition between planing and thicknessing operations. Featuring a powerful 1,100W motor and three cutting knives, it ensures smooth material removal and high-quality surface finishes. With its adjustable fence and compact footprint, this machine is an ideal solution for workshops requiring high performance and versatility in a single, space-saving unit.

Performance Metrics

Motor Power

1100 W

Motor Power

Cutter Block Speed (50Hz)	4000 rpm
Cutter Block Speed (60Hz)	4800 rpm
Feed Speed (50Hz)	8 m/min
Feed Speed (60Hz)	9.6 m/min

Capacity and Dimensions

Planing Capacity

Metric	Value
Max Planing Width	250 mm
Max Cutting Depth	2.5 mm
Planing Table Size	250 x 1050 mm

Thicknessing Capacity

Metric	Value
Max Thicknessing Width	250 mm
Max Thicknessing Height	180 mm
Thicknessing Table Size	250 x 600 mm

Technical Specifications

Number of Cutting Knives	3
Cutter Block Diameter	75 mm
Feeding Block Diameter	40 mm
Fence Tilt Range	0 to 45 degrees
Dust Chute Diameter	100 mm

Logistics

Weight (Net/Gross)	148 / 170 kg
Packing Dimensions	1150 x 530 x 920 mm
20ft Container Load	44 units
