

Combination Pliers with Ergonomic Grip

These combination pliers feature a hardened cutting edge for durability and precision. Constructed from premium alloy steel with a superior rust-resistant micro finish, the pliers are ideal for various gripping, cutting, and bending tasks.

Product Overview

Professional Combination Pliers

These combination pliers are engineered for demanding professional tasks, offering a versatile solution for gripping, cutting, and bending. Constructed from premium alloy steel, the tool features a hardened cutting edge for long-lasting precision and a rust-resistant micro finish for durability in harsh environments. Designed with user comfort in mind, the ergonomic, non-slip soft grip handle ensures secure handling and reduces fatigue during extended use.

Material & Construction

Material	Premium Alloy Steel
Surface Treatment	Rust-resistant micro finish

Performance Features

Cutting Edge

Hardened • High-Frequency Heat Treated

Ergonomics & Design

Handle Design	Ergonomic non-slip soft grip
Handle Material	TPR (Thermoplastic Rubber)

Applications

Key Functions	Gripping, Cutting, Bending
