Overview

Versatile Woodworking Solution

This combination woodworking machine is designed to maximize workshop efficiency by integrating five essential functions into a single, robust unit. It features a planing and thicknessing system, a precision panel saw, a spindle moulder, and a mortising attachment, making it ideal for both professional workshops and serious hobbyists. Built with a sturdy frame for stability, this machine offers adjustable settings to ensure precise cuts and consistent results across various material types.

Key Features

Performance Highlights

3000 W

Saw Motor Power

4000 r/min

Cutter Block Speed

80 dB

Max Noise Level

Integrated Functions

Planer, Thicknesser, Panel Saw, Spindle Moulder, Mortising

Planer & Thicknesser

Planer Specifications

Feature	Value
Max Planer Width	250 mm
Max Planer Cutting Depth	5 mm
Cutter Block Diameter	75 mm
Cutting Knives	3 pcs
Fence Tilt	0° to 45°

Thicknesser Specifications

Feature	Value
Table Size	600x250 mm
Max Thicknesser Width	250 mm
Max Thicknesser Depth	2.5 mm
Max Thicknesser Height	180 mm
Feed Speed	8 m/min

Panel Saw

Sawbench Specifications

- Main Motor: 3000W
- Big Blade Size: !250x!30x3.2x2.2x24t
- Small Blade Size: !80x!20x3.2x2.2x8t
- Max Cutting Height: 65 mm
- Cutting Height (45°): 45 mm
- Sliding Table Size: 1200x240 mm
- Sliding Table Travel: 1400 mm

Spindle Moulder

Spindle Moulder Details

- Motor: 3000W
- Spindle Diameter: !30mm
- Spindle Travel: 130 mm
- Spindle Speed: 3500/5500/7000 rpm
- Max Cutter Diameter: !140mm
- Max Cutter Height: 105 mm

Mortising

Mortising Unit

- Bit Housing: !16mm
- Vertical Stroke: 80 mm
- Table Travel (Up/Down): 140 mm
- Lateral Stroke: 85 mm
- Table Size: 161x368 mm

Physical & Logistics

Logistics Information

Metric	Value
Gross Weight	375/420 kgs
Packing Size	1300x1130x1010 mm
Dust Chute Diameter	1100mm

Options

Available Upgrades

Spiral cutter block (64pcs blades) • Cast iron fence • 150mm height machined aluminum rear fence
