Product Overview

Professional Combination Wrench

This combination wrench is designed for versatility and durability in demanding mechanical environments. Featuring both an open-end and a box-end configuration, it allows for quick fastener engagement and high-torque applications. Constructed from drop-forged, hardened steel, this tool ensures long-lasting performance and resistance to wear during heavy-duty use.

Technical Specifications

Manufacturing Process	Drop forged and hardened
Surface Finish	Polished chrome
Material	Alloy steel
Available Sizes	5/16, 1/2, 9/16

Design Features

Typical Applications

- Automotive repair
- Mechanical maintenance
- General fastening tasks

Box-End Design	Twelve-point
