Product Overview

Efficient Rice Processing Solution

The SB Series Combine Rice Mill integrates essential functions including husking, polishing, and grading into a single, robust unit. Designed for durability and ease of maintenance, these machines offer reliable performance for small to medium-scale processing operations. With adjustable settings for various rice varieties, this equipment ensures high yields and minimal grain breakage, making it a cost-effective choice for modern rice processing.

Technical Performance

Capacity and Power Metrics

Model	Power (kW)	Productivity (kg/h)
SB-5	5.5	400
SB-10D	5.5	1100
SB-30	15	1500
SB-50	22	2300

Available Models SB-5, SB-10D, SB-30, SB-50

Key Features

Primary Functions

- Husking
- Polishing
- Grading
- Husk and bran separation
