

Commercial Air Curtain

This air curtain is designed for commercial and industrial use. It provides a consistent airflow to separate environments and prevent the entry of dust and odors.

Product Overview

High-Performance Air Curtain

This industrial-grade air curtain provides a powerful and consistent airflow designed to effectively separate environments. By creating a high-velocity air barrier, it significantly reduces energy loss while preventing the entry of dust, insects, and odors. It features a robust, corrosion-resistant design suitable for demanding commercial entrances, doorways, and loading dock applications.

Key Features

Core Benefits

- Energy loss reduction
- Dust and insect barrier
- Odor control
- Multi-speed airflow adjustment
- Quiet operational profile

Technical Details

Recommended Environments

Commercial Entrances • Industrial Doorways • Loading Docks

Build Quality

Robust Construction, Corrosion-Resistant Finish
