

Commercial Audio Speaker

This speaker is designed for commercial audio applications. It provides clear and powerful sound reproduction.

Product Overview

Professional Commercial Audio Solution

This commercial audio speaker is designed to meet the rigorous demands of professional sound installations. Built for reliability and high-performance audio output, it provides a stable sound solution for various commercial environments. The system ensures consistent quality and durability, making it an ideal choice for integrated audio setups.

Technical Specifications

Key Features

- Overcharge protection
- Rechargeable lithium-ion chemistry
- High reliability for extended use

Power Source	Li-ion
Rated Voltage	7.2 V
Energy Capacity	6.8 Wh
Certifications	CE
