

Commercial Beverage Display Freezer with Transparent Door

This beverage display freezer is designed for commercial or residential use. It features a transparent door, internal shelving, and temperature control to showcase and preserve beverages.

Overview

Compact Commercial Cooling Solution

This commercial beverage display freezer features a transparent glass door, making it an ideal choice for showcasing products in retail or hospitality environments. Equipped with an efficient compressor-based cooling system, it offers adjustable temperature controls between 0-10°C to ensure beverages are served at the perfect temperature. The unit is designed for versatility and reliability, suitable for both commercial and residential applications.
