

Commercial Beverage Display Refrigerator

This compact display refrigerator is designed for optimal beverage storage and presentation. It features a glass door, stainless steel finish, interior shelving, and temperature control.

Product Overview

Commercial Beverage Display

This compact commercial beverage display refrigerator is designed for optimal product presentation and efficient cooling. Featuring a robust compressor system, it maintains a consistent temperature range of 0-10°C, making it ideal for keeping beverages chilled and ready for service. Its sleek design and glass door ensure high visibility, perfect for retail or hospitality environments.
