

Commercial Coffee Urn

This large-capacity coffee urn is constructed from polished stainless steel. It features a water level indicator, dispensing spigot, and indicator lights.

Product Overview

Professional Brewing Solution

This large-capacity coffee urn is crafted from high-quality polished stainless steel, designed to meet the rigorous demands of commercial environments like restaurants, catering events, and offices. It features an intuitive, integrated water level indicator and a user-friendly dispensing spigot for efficient service. Built for reliability, this unit combines durable construction with easy-to-use power controls to ensure consistent coffee preparation in high-volume settings.

Technical Specifications
