

Commercial Conveyor Dishwasher

This commercial conveyor dishwasher saves water by circulating it during washing, promoting environmental protection and energy conservation. Its automated operation includes water inlet, heating, and washing, requiring only a single key to start.

Overview

High-Efficiency Commercial Conveyor Dishwasher

This commercial conveyor dishwasher is engineered for high-volume dishwashing environments such as restaurants and large cafeterias. It utilizes an automated conveyor system to move racks through rigorous washing and rinsing stages, ensuring consistent sanitization and thorough cleaning. Designed with durability and hygiene in mind, the unit optimizes water and energy usage while maintaining a user-friendly interface for seamless operation.

Technical Specifications

Dimensions	4600 x 920 x 1860 mm
------------	----------------------

Performance Metrics

Washing Capacity

3000 pcs/H
Average Capacity

Water Consumption	450 L/H
-------------------	---------

Electrical Requirements

Total Power	67.41 kw
Voltage	380 v
